Management Information Systems graduate with a data analysis internship at Egypt's Cabinet of Ministers. I turn data into clear reports that help stakeholders make decisions. I build AI automation workflows to reduce manual work, save time and make business processes more efficient.

SKILLS

Data analysis: SQL / MySQL, Excel, Power Query, Power BI, DAX, Python / pandas, stakeholder reporting

Automation: n8n, RAG, evaluations (evals), guardrails, LLMOps, multi-agent workflows, API integrations, Supabase / PostgreSQL, JavaScript checks

EXPERIENCE

Data Analyst Intern & Policy Lab Trainee

Jan to Feb 2026

Information and Decision Support Center (IDSC), Cabinet of Ministers of Egypt

- Cleaned and analyzed government data using SQL, Excel and Power BI, then prepared clear reports and visuals for non-technical stakeholders.
- Received a Policy Lab certificate for distinguished performance and analytical contribution.

Sales Trainee | Vesuvius Egypt

Jun to Jul 2025

Supported day-to-day business-to-business sales and pipeline activities during training.

IT Technical Support Trainee | PlastTec

Jan to Feb 2025

Helped log and troubleshoot hardware and software issues during training.

SELECTED PROJECTS

Sales Analysis | Excel | 2026

Reviewed about **113,000 sales records**. Built an Excel workbook to clean the data, examine discounts and compare product profitability, with a dashboard and summary for stakeholders.

Cancelled and Returned Orders | SQL, Power BI | 2026

Cleaned and analyzed about **131,000 online sales records**. Built a Power BI dashboard to explore cancellations and returns.

Firm Assistant | n8n, RAG, LLMOps, Evals, Guardrails

Built an assistant using retrieval-augmented generation (RAG) to answer document questions and query a database. Added automated evals, request logs and guardrails to route questions and restrict SQL to read-only queries.

Multi-Agent Research & Report Automation | n8n

Used multi-agent orchestration to coordinate research, analysis and writing agents, gather web sources and produce PDF reports with charts. Added quotation checks against source text and retained citation links.

EDUCATION

University of Bedfordshire, United Kingdom | MSA University

Bachelor of Business Administration

2021 to 2025

Management Information Systems

Languages: Arabic (native) | English (professional working proficiency)
