PROFESSIONAL SUMMARY

Data Analyst with a dual MIS degree from MSA University and the University of Bedfordshire (UK), skilled in SQL, Excel, and Power BI. Delivered end-to-end data cleaning, EDA, ETL, and interactive dashboards in government and self-directed settings; awarded a certificate of excellence by the Egyptian Cabinet of Ministers (IDSC) for analytical contribution. Translates raw data into clear, actionable insights that support evidence-based business decisions.

TECHNICAL SKILLS

Analysis & Visualisation: SQL, Microsoft Excel (Advanced), Power BI (DAX, dashboards, KPI cards), Data Cleaning, Exploratory Data Analysis (EDA), Data Storytelling
AI & Tools: Prompt Engineering, Generative AI for analytical workflows, APIs, Data Structures, Connecting AI Tools via MCP
Business Knowledge: Financial Analysis, Marketing Analytics, Business Intelligence, Requirements Analysis, IT Project Management
Currently Expanding: Python (pandas, NumPy) for data analysis
Languages: English (Professional Working Proficiency)

EXPERIENCE

Data Analyst Intern & Policy Lab Trainee — IDSC, Cabinet of Ministers of Egypt, Cairo *Jan – Feb 2026*

- Cleaned, analysed, and visualised government datasets using SQL, Excel, and Power BI; delivered recurring reports and interactive dashboards adopted by multiple policy departments.
- Streamlined data pipelines to reduce manual reporting effort, enabling faster turnaround on cross-departmental data requests.
- Selected for the government Policy Lab programme on data-driven governance; awarded a certificate of excellence by the Assistant to the Prime Minister of Egypt for outstanding analytical contribution.
- Collaborated with senior policy advisors to translate complex datasets into clear narratives supporting evidence-based decision-making.

IT Technical Support Trainee — PlastTec, Advanced Plastic Manufacturing, Cairo *Jan – Feb 2025*

- Provided technical support and troubleshooting for corporate hardware and software within SLA timelines; documented recurring issues and proposed process improvements.

Sales Trainee — Vesuvius Egypt, Cairo *Jun – Jul 2025*

- Supported B2B sales operations with exposure to client communication and pipeline management.

PROJECTS

Full write-ups and interactive dashboards: nour2303.github.io/insights.html

Amazon Sales Data Analysis — Business Issue Identification | Self-Directed *2026*

- Analysed 130,000+ Amazon sales rows with SQL, Excel, and Power BI to surface the key drivers of revenue loss; delivered an interactive stakeholder dashboard with layered filters and KPI cards.

Hotel Reputation Analysis — 33,800 Guest Reviews | SQL, Power BI, AI Text Analysis *2026*

- Standardised 33,800 messy hotel reviews across 626 hotels (duplicates, mixed rating scales) and applied AI text mining to identify hygiene as the root cause of poor ratings; delivered brand-level fixes in a stakeholder report.

Bike Sales Profitability Audit — Data Quality & Margin Analysis | Excel, 113,000 rows *2026*

- Audited 113K sales rows in Excel, detected ~50% fabricated data via a leap-day test, and quantified discount-driven margin erosion (51% → 31%) in a formula-driven analysis layer with an interactive dashboard.

EDUCATION

BBA, Management Information Systems | MSA University & University of Bedfordshire (UK) *2021 – 2025*

- Dual-accredited programme bridging business and technology: Finance, Marketing, Business Intelligence, AI Fundamentals, Cloud Computing, APIs & Data Structures.

CERTIFICATIONS & ACHIEVEMENTS

- Certificate of Excellence — Assistant to the Prime Minister of Egypt, for data analytics contribution at IDSC Policy Lab (2026).
- In progress: Microsoft PL-300 (Power BI Data Analyst).
